Work Experience

Software developer/Engineer

AmaliTech Ghana

Aug 2020 – Dec 2021

- Led a team of 2 developers to build an Advent Calendar mobile app to help increase awareness about [Amalitech](#) and receive donations from users using dart/flutter and integration with Paypal and Stripe APIs.
- Improved and completed the backend restful API services of the company's KPI dashboard, which helped provide a summary about project statuses, and is included in assessing project teams and individuals during employee reviews using Springboot and Integration with JIRA platform API.
- Worked with [nexum](#) Salesforce team on Salesforce B2C commerce platform performing unit-tests and modifications to [Schaffrath](#).
- Built custom cartridges and page designer components for building e-commerce sites with the Salesforce Platform, which was used for the rapid development of e-commerce sites by the company.
